DH Tech has highly qualified, fully-trained technicians, the right equipment and the most advanced technology available to make your project a successful project.

Service: 24 hours a day / 7 days a week

Equipment: 200 cfm to 20,000 of variable style dehumidifiers and temperature control units

Experience: Over 40 years of hands-on, technical and design experience

Technology: Innovative new concepts for drying, continuous electronic monitoring equipment, economical equipment to save money

Large Array of Equipment

Our Water Damage Services

DH Tech, Inc. is an industry leader in water damage restoration and has the right project managers, the right equipment and the right technology immediately available on a rental basis. We have utilized our desiccant and refrigerant-style dehumidifiers to minimize our customers loss in the:

- Commercial
- Retail
- Residential
- Industrial/Manufacturing Facilities

The aftermath of fires, floods, hurricanes, and plumbing failures can be devastating. If water or moisture is not immediately controlled,

Access of Holes
in Walls to
Allow Drying

it will destroy walls, ceilings, flooring, furniture, documents, books, electronic equipment, artwork, artifacts... in homes, businesses and those things which are expensive to replace or are irreplaceable.

Large Job With Blend System

866-736-8348

Portable Package Unit With Power Pack

Precision dehumidification with the proper design can:

- Drastically minimize losses from cost of replacement
- Minimize business interruption and its cost
- Reduce potential mildew and mold growth
- Stop corrosion by neutralizing the electrolytic cell

Document Drying - With our drying technique, we can successfully dry your important documents on your site or at our facility in Houston.

Technology - DH Tech, Inc. utilizes the most advanced technology including:

- Blend systems to acquire low dew point at cool temperatures
- Low vapor pressure
- Freeze drying
- High volume air

Air Distribution System

Desiccant Dehumidifiers

DH-600 cfm.....18 amps
DH-1,125 cfm.....37 amps
DH-2,250/3,000 cfm.....66/80 amps
DH-4,500/5,500 cfm.....107/136 amps
DH-9,000/12,000 cfm.....236/274 amps

* 480 volt / 3 phase

Refrigerant Dehumidifiers

DH-6 ton DX.....12/36 amps
DH-12.5 ton DX.....30/80 amps
DH-20 ton DX.....45/100 amps
DH-40 ton DX.....100/165 amps

* 480 volt / 3 phase

**Accessories
&
Ancillary
Equipment**

DH-120..... 110 volt
DH-150..... 110 volt
DH-200..... 110 volt
Airmover & blowers.....110/480 volt
In-line heater.....30,60,120,150 kw
Cooling coils.....2250,4500,9000 cfm
Transformers.....45,112,176 KVA
Distribution panels.....10, 20 plugs

* 110/240/480 volt / 1 - 3 phase
